

Solution Fit Canvas

Project Name: Guided City Tours

Project Description: An interactive platform that helps travelers discover, plan and enjoy guided city tours with ease.

Target Customer / User Personas (Example)

	Embrace Am I addressing the right customers' needs and motivations?	Enter What is causing my customer to seek my solution?	Engage Is my solution solving the problem, saving time or money?	Exit What is my customer's experience with the product?	Extend How can I build trust & retention to retain my customers for life?
Steps What are the steps (or jobs) the user experiences?	Wants to explore a new city Searches for guided tours online Compares tour options Decides to book a tour	Planning a trip Looking for local experiences Needs reliable and easy booking Wants a hassle-free experience	Views tour details Checks itinerary & price Reads reviews & ratings Books the tour	Completes the tour Shares experience & photos Rates and reviews the tour Recommends to friends and family	Receives personalized suggestions Loyalty discounts & offers Books again for another destination Becomes a brand advocate
Interactions What are the main ways how are users interacting with your solution? People, Media (i.e. online, call, email, in person) What part of the experience is your solution addressing?	Search on website / app See popular destinations Read blogs & travel content View social media posts	Search tours by city Filter by date, price, language View tour details & itinerary Check availability	Select tour & date Make secure online payment Get booking confirmation (email/SMS) Receive tour reminder & details	Join guided tour Interact with guide & group Provide feedback in app/email Contact support if needed	Get offers on future tours Subscribe to newsletter Follow on social media Refer friends & earn rewards
Social & Resistance Who else is involved? How are users influencing each other? (Who says "no," that's too much.")	Friends suggest places Influencers & travel bloggers Online travel communities Travel review platforms	Budget constraints Too many options (confusion) Trust issues with unknown platforms Time constraint	Worries about cancellations or refunds Language barrier Concerns about safety and quality Needs instant confirmation	Weather issues Tour not as expected Crowded tour groups Communication gap	Concern about price Lack of new experiences Better deals on other platforms Forgets to book again
Positive Impact What value does the user receive from using your solution? How does it positively affect their journey, lifestyle or goals?	Discovers amazing destinations Gets travel inspiration Learns about local culture & history Feels excited for the trip Plans better itinerary	Saves time in planning Easy access to all tour information Compares & chooses best option Feels confident about choice	Smooth booking experience Secure payment process Quick confirmation & updates Feels assured and stress-free	Enjoys well-organized tour Learns & explores more Shares great experience online Feels happy and satisfied	Gets exclusive offers Builds loyalty with the brand More personalized experiences Becomes repeat customer
Negative Impact What negative emotions or frustrations does the user experience? What problems or pain points are they trying to avoid?	Overwhelmed with too many options Not sure which tour is worth it Fear of fake reviews or scams	Hard to find reliable information Complex booking process Hidden charges or extra costs	Payment failures No immediate confirmation Unclear tour details or itinerary	Poor guide or service Delays or schedule changes No response from support	Too many emails or notifications Irrelevant recommendations Lack of loyalty benefits
Areas of Opportunity How can we improve? What features, content, or services can create more value?	Curated tour collections Inspiring travel content Easy search & filters Personalized Clear reviews	Simplify search process Transparent pricing Verified tours & guides Multiple	Instant confirmation Real-time updates 24/7 chatbot support Offline	Post-tour feedback form Easy rating & review system Share tour photos in-app Quick support	Loyalty programs Exclusive discounts Personalized tour suggestions Referral Gamified
