Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

PROBLEM – SOLUTION FIT CANVAS Project Name: HouseHunt – Smart Platform for Finding Your Perfect Home			
Define CS, fit into CC	1. CUSTOMER SEGMENT(S) 	6. CUSTOMER CONSTRAINTS 	5. AVAILABLE SOLUTIONS
	Who is your customer? i.e., working person, of 25 yrs, a firm - House buyers - House renters - Real estate agents - Property owners - Students and working professionals searching for accommodation	What constraints or barriers are stopping your customer from solving their problem? (time, money, skills, trust, access, etc.) - High brokerage charges - Fake or outdated listings - Limited property information - Time-consuming search process - Lack of transparency and trust	What solutions are currently available to your customers when they have this problem? (include what they are doing to solve it today – both online and offline) - Real estate websites - Local brokers - Social media property groups - Newspaper advertisements - Word of mouth (friends, family)
Focus on Jobs & Pains	2. JOBS-TO-BE-DONE / PROBLEMS 	9. PROBLEM ROOT CAUSE 	7. BEHAVIOUR
	What jobs-to-be-done (functional, social, emotional) your customer is trying to get done? - Find suitable houses quickly - Compare price, location, and amenities - Contact verified property owners - Avoid fake property listings - Save time during house searching - Get accurate and updated information	What is the root cause of the problem? Why is your customer facing this issue? (dig deeper to identify the real underlying problem) - No centralized platform with verified listings - Lack of accurate and updated property information - Difficult communication between buyers and owners - High dependency on brokers and offline resources - Lack of transparency leads to trust issues	What does your customer do in response to a problem and what can we learn from that? Describe the customer behaviour from their point of view, not ours. - Search for properties online or offline - Filter properties by location, budget, type, amenities - Compare multiple listings - Contact owners or agents for more details - Visit and finalize the property
Identify Feeling TR & EM	3. TRIGGERS 	10. YOUR SOLUTION 	
	What causes customers to start looking for a solution? What prompts, events, or needs activate the search? - Relocating to a new city - Starting a new job or college - Need for better or affordable housing - Expiry of current rental agreement - Change in family size or lifestyle		
4. EMOTIONS (BEFORE / AFTER) 		8. CHANNELS & BEHAVIOUR 	
How do customers feel when they have a problem? i.e., sad, insecure, confident, frustrated – list their emotions before and after getting a solution Before: - Confused - Worried about fake listings - Frustrated - Insecure After: - Happy - Relief - Confident - Comfortable - Satisfied		Describe your solution. How are you solving the customer problem? What is your unique value proposition? How does your solution remove the root cause? HouseHunt is a web-based property search platform that helps users find their ideal home easily and efficiently. It provides verified property listings with detailed information, advanced search filters (location, budget, property type, amenities), and direct contact with property owners. It saves time, builds trust, and simplifies the entire house-hunting experience.	
Online: - Website (HouseHunt Platform) - Mobile App - Social Media (Facebook, Instagram, LinkedIn) - Online Ads (Google, Social Media Ads) Offline: - Real estate agents and brokers - Friends and family recommendations - Local property exhibitions and events - Print media (newspapers, flyers)		Ensure Codes & Fit in C & BE
